### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 103***

Claims 1-10 and 12, 14-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 148600 or Thomas et al. in view of Satoh et al. and further in view of Chigurapati et al. or Olsen for the reasons of record.

Applicant argues that the process that the prior art would yield and that of the instant invention are different. Applicant shows a comparison table at the end of their declaration filed on 2/18/2005. The table on page 10 of the declaration shows that in a comparison of a prior art process and that of the instant invention, that the prior art process yielded a degree of hydrolysis of 30-35 % and that of the invention being at 35-~~4~~5%. Fact is, the 35 % overlaps both ranges making the results obtained by applicant as not unexpected and thus the rejection under 35 USC 103 remains proper.

Claims 1-10 and 12, 14-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chigurapati et al. or Olsen taken with Satoh et al.

Applicant provides no further arguments concerning this rejection. See above arguments.

Claims 1-10 and 12, 14-18 rejected under 35 U.S.C. 103(a) as being unpatentable over Dalboge et al, Edens et al., or Schoenmaker et al. in view of Satoh et al.

Applicant provides no further arguments concerning this rejection. See above arguments.

This is a RCE of applicant's earlier Application No. 09/811,766. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1654

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
